M + Z
JANE STILES & MERYL JONES

CO-DIRECTOR'S STATEMENT

M+Z is our debut feature; a dark comedy inspired by time spent together in the Southwest searching for water. We founded Sweet Potato Productions after collaborating on three shorts - *Goldilocks*, *The Love Spell*, and *Dom*. Desert movies are mostly told from the cis-male perspective, our culture reveres a man on the road. Homage is seldom paid to the female or non-binary counterpart without sexual violence. We are excited to share our perspective.

We wrote the script at The Home of The Brave artist residency in Cisco, Utah. Off a neverending two lane highway, Cisco feels as if it's on the edge of the world. It's unsurprising that a memorable scene from *Thelma and Louise* was filmed there just before they drive off the cliff. There is no running water in Cisco. We were unable to bathe, cool off, or fully hydrate. Each time we return to the region, the bodies of water dwindle. While following the cliché of trying to find ourselves in the American West, we were ultimately faced with the drought. We draw a bridge between this quest in a scorched landscape and the amorphous feeling of homesickness. Two siblings in a third-life crisis look for belonging in their relationship, that they've lost.

In *M+Z* queer characters exist in a nuanced way. The murders of lesbian couple, Kylene Schulte and Crystal Turner, in the La Sal Mountains, occurred while we lived in nearby Cisco. This act of violence was our worst nightmare, but affirmed the importance of queer representation in rural America. In response, we call out this horrific event yet subvert victimhood by exposing the psychology of misogyny with tender humor. We devote our story to womxn, LGBTQIA+ folks, and anyone on the fringe of heteronormativity. We sincerely thank you for the consideration of our film.

STORY

MONA, 35, a homebody, receives a peculiar piece of mail from her sibling, ZEPHYR, 40, a queer nomad. Inside is a cryptic note with a lock of Zephyr's hair inciting Mona to visit them in their new home; a dilapidated cabin in a Utah ghost town with lots of quirks and no running water. After years of disconnect, Mona sets off on what she thinks is a mission to save her sibling. She meets Zephyr's child NEPTUNE, 4, and MAX, 19, an eccentric skater boy babysitter. In an effort to bond and escape the summer heat, Zephyr tries to bring Mona to a body of water to cool off, but the plan repeatedly hits a snag. In a landscape where water is drying up, their quest becomes existential.

Clunkily co-parenting, a series of little deaths ensue; Mona accidentally pushes Zephyr into a cactus, Zephyr's beloved chicken gets annihilated by coyotes, Neptune gets lost. After a filthy Mona attempts to bathe in the jerry-rigged bathtub and wastes a tank of Zephyr's water, the siblings erupt in a painful argument about safety and resources that exposes how strange they are to each other. A drop in from their idiosyncratic father, ROCKY, 60's, and his new life-partner, PEARL, an ageless psychic medium, comes at the worst time.

Raw from an ayahuasca journey, Rocky cooks a glutinous dinner and forces everyone to watch a cringey VHS of Mona and Zephyr as kids featuring their deceased mother's voice behind the camera. Mona drinks her way through this forced reunion. Dizzied, Zephyr forgets to lock the chicken coop and they're all mauled overnight. The siblings fracture and run away from home. Zephyr breaks off on a dissociative Jesus walk leaving Neptune and clings to a tourist family. They suffer a fainting spell. Mona disappears on a dicey date from hell with WINNIE, 30's, a local fuckboy. Adrift, the siblings have absurd visions; they see each other in child's clothes in the red rocks like psychic buoys. Left on the side of the road and longing for love, Mona steals the neighbor's sweet chihuahua, TINK. Zephyr hitchhikes home. In the witching hour, the siblings finally confess how much they miss each other.

Rocky and Pearl hit the road. Zephyr drags Mona to return Tink to her owner COOKIE, 60's, a red rock woman. Cookie directs them to a secret lake as an act of providence. At last, the gang makes their way to water. In the center of the lake, Zephyr panics. Mona instructs them to float on their back. The siblings both float in the melancholy of their impending silent farewell. Finally, they swim across childlike in homesick catharsis.

ARTISTIC APPROACH

MIXED MEDIA

Investigating the confessional, we're watching our families' Hi 8 tapes and archival footage. We find parallels between the disintegration of analog technologies, the receding water in the Southwest, and third-life growing pains. *M+Z* will be shot on 16mm and VHS to evoke the temporality of the sibling's disappearing memory of their shared childhood. The final film will inter-splice our written narrative with home videos and narrativized reenactments. The tone will strike a chord of off-beat and vulnerable humor found in our experiential writing process and the humiliation of tilling through our families' logs.

SOUND

Mona and Zephyr's deceased mother is expressed through a voice-over; a message giving meandering directions on an old answering machine. This repeats over the image of the water they seek. To subconsciously signal the inability to hold onto our family, her voice will gradually decay and warp into the rush of water. Her absence structures the story and the repetition of the scene is a divination.
